Play and Joy with Effect

MANY USES WITH ONE EQUIPMENT - "1 EQUIPMENT, 100 USES"

you can train balancing, leg strength, endurance, mobility, memory, spatial orientation, concentration, sensory-motor coordination, etc. with the same equipment.

TRAINERS/CARERS CAN CONSTRUCT THEIR OWN FIELDS WITHIN SECONDS

a rectangle, square, horseshoe shape, put tiles further apart, add cones and other objects.

EASY TO USE BY ANYBODY, ANYWHERE, ANYTIME

Moto Tiles can be set up and used by anybody within 1 minute.

EVIDENCE OF EFFECT FROM CLINICAL TRIALS

Physical and cognitive benefits even after very short time training.

"SMALL IS SMART"

Moto Tiles can be transported easily and set up in any room, and it can be taken away so that it does not occupy space. No need for large space for set-up, installations, and infrastructure (as is needed for some other products).

USERS AND TRAINERS FIND MOTO TILES VERY FUN AND MOTIVATING

They laugh together and have fun while playing the games.

MOTO TILES INCLUDE MANY GAMES

15 games in basic package, and more than 40 in total, whereas many other products only have 1-3 different kinds of games/activities.
